## CODE CHARACTER

### EVENT DESCRIPTION:

*“Most good programmers do programming not because they expect to get paid or get adulation by the public, but because it is fun to program” – Linus Torvalds*

Make the coder in you come alive, and battle it out against more likeminded individuals in this online multiplayer live coding strategy game!

Each player has a character associated to control with code. You pit your character (code) against others in the arena and manoeuvre your way to the top of the scoreboard. The coding language used is Javascript. Character control will be available through an API, provided alongside.

Cash prizes worth **INR 20000**

### FORMAT:

One online round – starts with the official Pragyan’16 inauguration and continues for three days. A live scoreboard is available throughout the game.

### RULES:

Code in the interface available to define your character, equip yourself with moves, and attacks are made available through the API.

### JUDGING CRITERIA:

Score can be amassed during the game by fighting other “code characters”. Rules for scoring will be mentioned in the game portal. A live leader board will be available online throughout the event.
