LABYRINTH

EVENT DESCRIPTION :

It is an online treasure hunt event which requires some technical expertise in encryption, encoding (or decryption , decoding, likewise) to crack the levels, a little bit of general knowledge, and a humongous amount of common sense other than web search.

FORMAT :

There are several levels, clues to each are given, in different ways in the very same page, which have to be cracked using a variety of skills , and once the dots are connected, the answer has to be typed in the input text box in order to go on to the next level.

Other than web search, it involves some technical expertise in encryption, encoding (or decryption, decoding, likewise) to crack the levels, a little bit of general knowledge, and a humongous amount of common sense.

RULES :

- Type in the correct answer after seeing the clues in order to pass to the next level.
- People are ranked in order of the levels completed.
- In case of ties, the person who completed the latest level earlier is ranked higher up.
- Data is stored in mille seconds, so the chance of a tie on that as well is negligible.

JUDGING CRITERIA :

- People are ranked in order of the levels completed.
- In case of ties, the person who completed the latest level earlier is ranked higher up

FAQ :

1. What is Labyrinth?

Labyrinth is the online treasure hunt event of Pragyan, the annual Techno-managerial fest of NIT Trichy. It requires you to find out an answer based on the clues given to you.

2. Who can participate in Labyrinth?

Anyone who has a Pragyan ID can participate in Labyrinth. To register for Pragyan and get a Pragyan Id, use the link <place link here>.

3. How am I ranked?

Players are ranked in the descending order of number of levels completed. For players who have completed the same number of levels, the number of attempts are considered; lesser the number higher the rank. If this parameter also matches, then the total time is considered.

4. Where do I look for clues?

Clues can be anywhere within the web page. Common places for clues include URL and source code.

5. What do I do if I am stuck on a level?

If you are stuck on a level, try your best to unearth all clues. In case of any queries, you can visit the discussion forum.

6. What do I do if my answer has two or more words?

The correct way to enter your answer is to enter your answer WITHOUT SPACES between the words. All answer are in LOWERCASE. For instance, if the answer is "Christopher Nolan", then you must enter "christophernolan".
